

## What do people say about RI Witness?

---

"This electronic witnessing system offers patients increased confidence, that their samples are safe and will not be mixed up, at all times during treatment."

**Dr Steve Troup**  
Hewitt Centre for  
Reproductive Medicine  
BBC News

"Since I started using RI Witness in my laboratory the embryologists sleep better and so do the patients."

Jean-Claude Jacquet  
Oriade PMA Grenoble  
France

## Why RI Witness?

We know that embryologists are some of the most dedicated, exacting professionals you can meet. They pride themselves in the care and attention they give each and every patient at their clinic.

Since 2004 we have worked closely with leaders in the field to create a support system, RI Witness, which helps them throughout the IVF cycle. It ensures that every step of the fertility cycle (within the lab) is managed properly and securely – helping to guarantee the safety of your samples.

---

RI Witness was launched in 2007 and has become the gold standard for security conscious IVF laboratories.

Fertility and Genomic Solutions

We understand you want to know everything is being taken care of as you embark on a life changing journey.

## What is RI Witness?

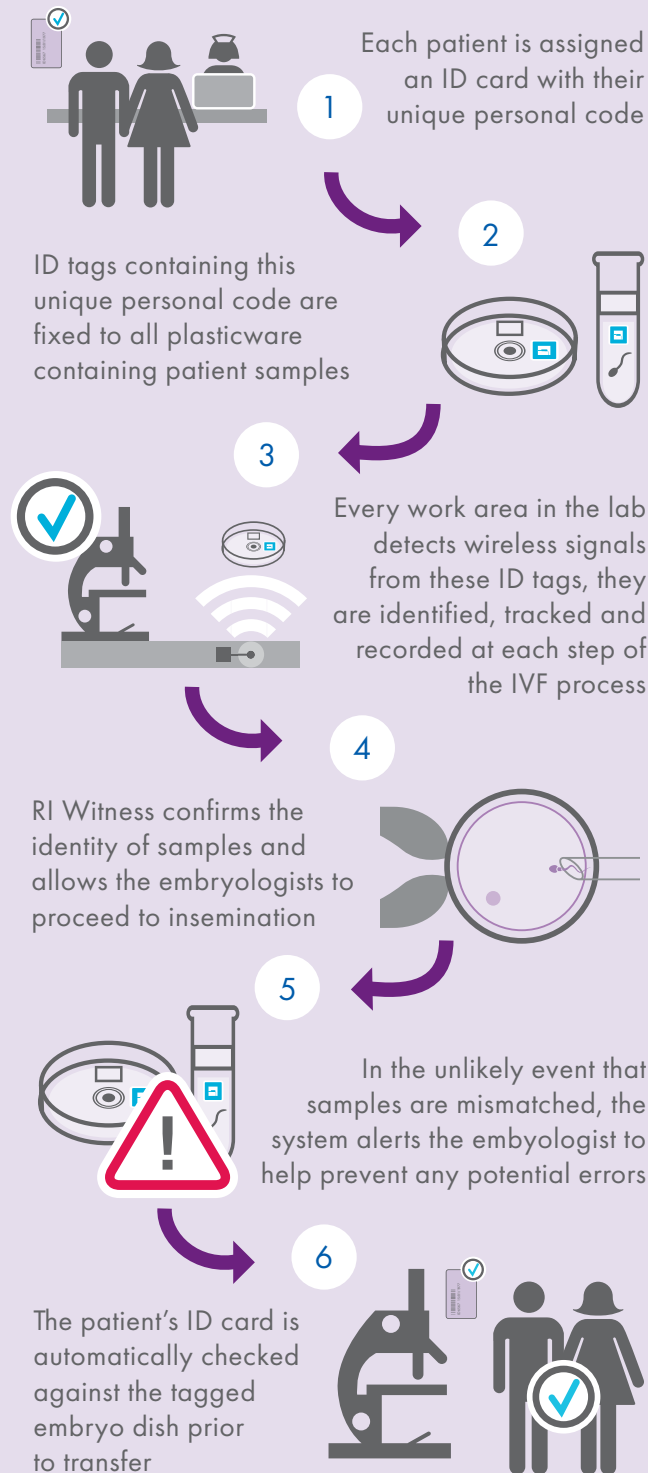

RI Witness has been created to help minimize errors that may occur during IVF treatment cycles. It is an electronic witnessing system that monitors all laboratory workstations twenty-four-seven where samples are moved from one dish or tube to another. This system is automatic, so it does not require additional steps by embryologists to identify samples, which are necessary with double witnessing or other electronic witnessing systems.

## What does this mean to you?

Choosing a clinic with RI Witness installed allows you to rest assured that your samples are being managed in the securest possible way. A clinic with RI Witness places you at the forefront of its priorities and proves that taking extra measures and every precaution is the centre of their philosophy.

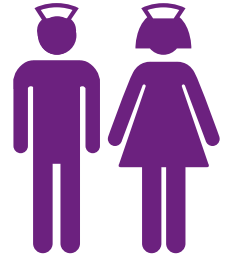

## How does it work?

## RI Witness clinics

RI Witness has been installed in IVF clinics across the world including:

American Hospital, Turkey

Bourn Hall Clinic, UK

Cecolfes, Columbia

Nova IVI, UAE
